

Why settle for 'good enough' when you can have it all?

Introducing the ET40-HC and ET45-HC Rugged Healthcare Tablets

Everything you need to give your patients the highest quality care — at a price you can afford.

-  **Designed for constant disinfecting**
Disinfect with the harshest chemicals after every use, preventing the spread of germs.
-  **Rugged and ready for work**
Built to last for years — survives drops and exposure to liquids, rain, snow and extreme heat and cold.
-  **Healthcare alert button for rapid response**
When every second counts, one press of a button summons help.
-  **The fastest wireless networks — 5G and Wi-Fi 6**
Keep caregivers connected anywhere with the fastest and most reliable wireless connections.
-  **World-class scanning**
Any barcode, in any condition, all in a split second — with healthcare-friendly illumination.
-  **Large 10 in. display that's perfect for patient records**
See more. Do more. Scroll less. Rugged Gorilla Glass. Easy to see inside and outdoors.
-  **Tailor it for so many jobs**
Use it as a self check-in kiosk, a fixed or mobile workstation, at bedside for patient communications and more.
-  **Everything you need for telehealth**
High-resolution front-facing camera for remote appointments, virtual follow-ups, family visits and more.
-  **Turn it into a walkie-talkie or PBX handset**
Enable seamless and secure communication between staff and clinicians.
-  **Count on availability and support**
More staff? No problem. It's available for sale for 3 years — with 6 years of available support.
-  **Dependable power every minute of every shift**
Extra-high capacity, user replaceable battery with an industry-leading battery management solution.
-  **Built-in advantage with Zebra Mobility DNA™ Professional**
Powerful pre-installed no-cost tools make these tablets easier to secure, deploy, manage and troubleshoot.
