# MT2000 Series

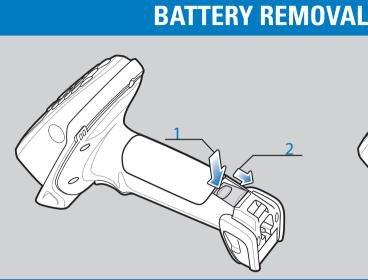

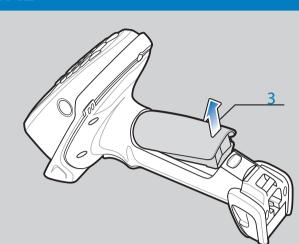

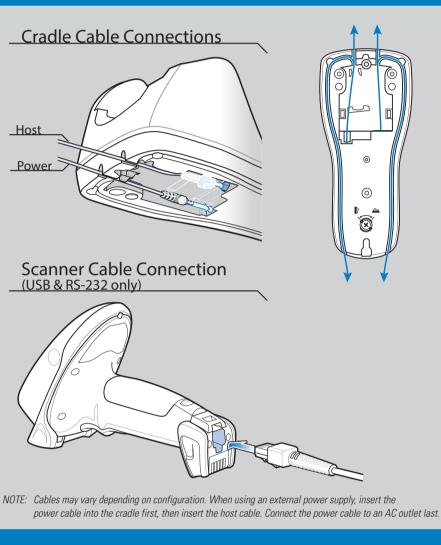

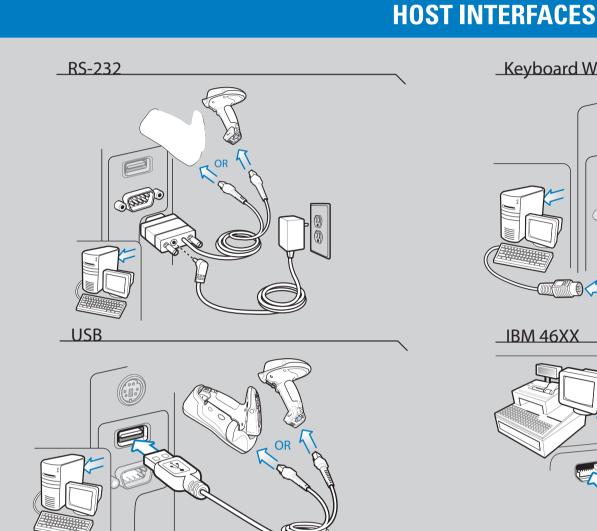

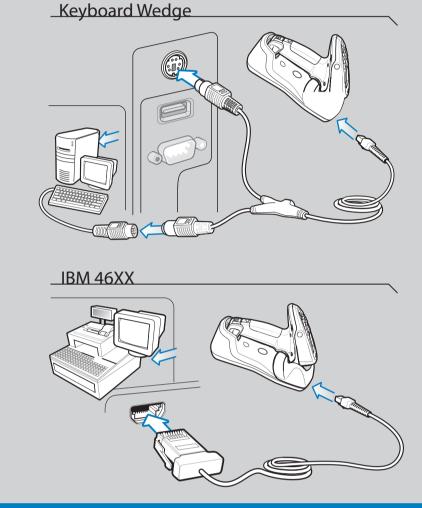

**CONNECTIONS** 

### **TROUBLESHOOTING**

Refer to the MT2000 Series User Guide Troubleshooting section for further information.

Scanner not working No power to scanner

Check battery

NOTE: Under certain circumstances, a fully discharged battery can take up to 30 minutes to charge before the scanner is operational. Refer to the User Guide for

Scanner not decoding bar code

Scanner not programmed for bar code type

> Ensure scanner is programmed to read type of bar code being scanned

Bar code unreadable

Ensure bar code is not defaced; try scanning test bar code of same bar code type

Scanning application is not running

From the Home screen display on the scanner, select Scan Item to run the scanning application

Scanner decoding bar code, but data not transmitting to host

Scanner not paired to host-connected cradle Cradle not programmed for correct host interface Interface cable is loose

Check scanner host parameters or

Check for loose cable

Scanned data incorrectly displayed on host

Paired cradle host communication parameters do not match the host's parameters

Check cradle host parameters or edit options

# NOTE: If data is still not transmitting to host, it may be necessary to recycle power on the cradle.

Pair the scanner to the cradle (using the PAIR bar code on the cradle)

# **MT2000 SERIES PROGRAMMING BAR CODES**

Ergonomic

Recommendations

Caution: In order to avoid or minimize the potential  $risk\ of\ ergonomic\ injury\ follow\ the$ recommendations below. Consult with your local Health & Safety Manager to ensure that you are adhering to your company's safety programs to prevent employee injury.

- · Reduce or eliminate repetitive motion · Maintain a natural position · Reduce or eliminate excessive force
- · Keep objects that are used Perform tasks at correct heights
- · Reduce or eliminate vibration

· Improve work procedures

- · Reduce or eliminate direct pressure · Provide adjustable workstations · Provide adequate clearance
- · Provide a suitable working environment

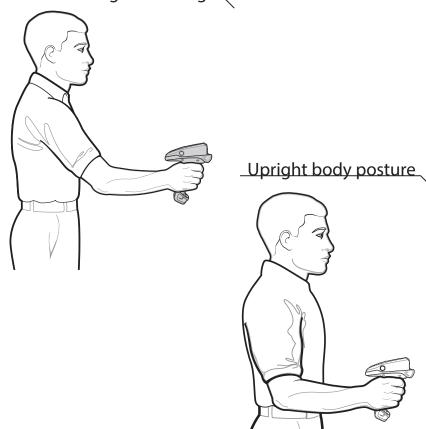

# **RECOMMENDED USAGE GUIDE - OPTIMUM BODY POSTURE**

# Low scanning Alternate left and right knees

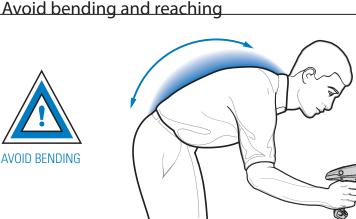

Avoid extreme wrist angles

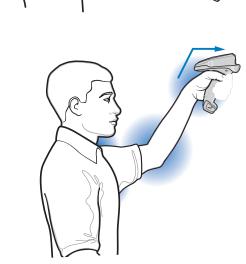

#### Avoid bending and reaching

# MT2000 Series

# All Zebra devices are designed to be compliant with rules and regulations in locations they are sold and will be labeled as required.

Local language translations are available at the following website: www.zebra.com/support. Any changes or modifications to Zebra equipment, not expressly approved by Zebra, could void the user's authority to operate the equipment. Only use Zebra approved and UL Listed accessories, battery packs and battery chargers.

Do NOT attempt to charge damp/wet mobile computers or batteries. All components must be dry before connecting to an external power source. Wireless Device Country Approvals

Regulatory markings, subject to certification, are applied to the device signifying the radio(s) is/are approved for use in the following countries: United States, Canada, Japan, China, S. Korea, Australia, and Europe 1. Please refer to the Zebra Declaration of Conformity (DoC) for details of other country markings.

This is available at http://www.zebra.com/doc. Note 1: For 2.4GHz or 5GHz Products: Europe includes, Austria, Belgium, Bulgaria, Czech Republic, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

Operation of the device without regulatory approval is illegal.

# Frequency of Operation - FCC and IC

The use in the UNII (Unlicensed National Information Infrastructure) band 1 5150-5250 MHz band is restricted to Indoor Use Only; any other use will make the operation of this device illegal.

 $The available \ channels \ for \ 802.11 \ b/g \ operation \ in \ the \ US \ are \ Channels \ 1 \ to \ 11. The \ range \ of \ channels \ is \ limited \ by \ firmware.$ 

Health and Safety Recommendations Warnings for Use of Wireless Devices

Please observe all warning notices with regard to the usage of wireless devices

Wireless devices should be switched off wherever you are requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

#### Pacemaker manufacturers recommended that a minimum of 15cm (6 inches) be maintained between a handheld wireless device and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with independent research and recommendations by Wireless Technology Research

# • Should ALWAYS keep the device more than 15cm (6 inches) from their pacemaker when turned ON.

 Should not carry the device in a breast pocket • Should use the ear furthest from the pacemaker to minimise the potential for interference • If you have any reason to suspect that interference is taking place, turn OFF your device.

Please consult your physician or the manufacturer of the medical device, to determine if the operation of your wireless product may interfere with the medical device

Other Medical Devices

RF Exposure Guidelines

Safety Information Reducing RF Exposure – Use Properly

Only operate the device in accordance with the instructions supplied.

The device complies with internationally recognized standards covering human exposure to electromagnetic

Handheld Devices To comply with EU RF exposure requirements, this device must be operated in the hand with a minimum separation distance of 20 cm or more from a person's body. Other operating configurations should be avoided.

For information on "International" human exposure to electromagnet fields refer to the Zebra Declaration of Conformity (DoC) at http://www.zebra.com/doc. **US and Canada** Handheld Devices

#### To comply with FCC RF exposure requirements, this device must be operated in the hand with a minimum separation distance of 20 cm or more from a person's body. Other operating configurations should be avoided. Ukraine: This equipment corresponds to requirements of the Technical Regulation No. 1057, 2008 on restrictions as to the use of some dangerous substances in electric and electronic devices.

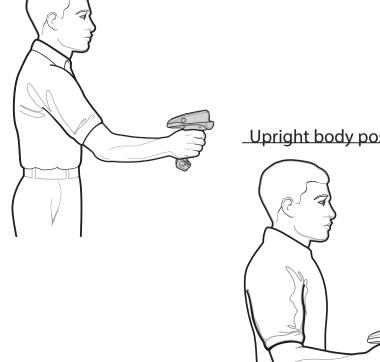

For Australia Only. This warranty is given by Zebra Technologies Asia Pacific Pte. Ltd., 71 Robinson Road, #05-02/03, Singapore 068895, Singapore. Our goods come with guarantees that cannot be excluded under

the Australia Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major Zebra Technologies Corporation Australia's limited warranty above is in addition to any rights and remedies you may have under the Australian Consumer Law. If you have any queries, please call Zebra Technologies Corporation at +65 6858 0722. You may also visit our website: http://www.zebra.com for the most updated warranty terms.

KOREAN / 한국어 1등급 1등급 레이저 제품 2등급 레이저 광선 이 광선을 주시하지 마십시오. 2등급 레이저 광선 Complies with 21CFR1040.10 & 1040.11 except for deviations pursuant to Laser Notice NO. 50, dated June 24, 2007 and IEC/EN 60825-1:2007 and/or IEC/EN 60825-1:2014.

The laser classification is marked on one of the labels on the device Class 1 Laser devices are not considered to be hazardous when used for their intended purpose. The following statement is required to comply with US and international regulations Caution: Use of controls, adjustments or performance of procedures other than those specified herein may result in hazardous laser light exposure. Class 2 laser scanners use a low power, visible light diode. As with any very bright light source, such as the sun,

the user should avoid staring directly into the light beam. Momentary exposure to a Class 2 laser is not known to be harmful.

# **REGULATORY INFORMATION**

# Charging

To charge the device battery, the battery and charger temperatures must be between  $+32\,^{\circ}$  F and  $+104\,^{\circ}$  F ( $0\,^{\circ}$  C and  $+40\,^{\circ}$  C). Please follow the local regulations when disposing of re-chargeable batteries.

Taiwan - Recycling「廢電池請回收」

between +32 ° F and +104 ° F (0 ° C and +40 ° C)

EPA (Environmental Protection Administration) requires dry battery producing or importing firms in accordance with Article 15 of the Waste Disposal Act are required to indicate the recycling marks on the batteries used in sales, giveaway or promotion. Contact a qualified Taiwanese recycler for proper battery disposal.

Zebra rechargeable battery packs are designed and constructed to the highest standards within the industry. However, there are limitations to how long a battery can operate or be stored before needing replacement. Many factors affect the actual life cycle of a battery pack, such as heat, cold, harsh environmental conditions and severe When batteries are stored over six (6) months, some irreversible deterioration in overall battery quality may occur. Store batteries at half of full charge in a dry, cool place, removed from the equipment to prevent loss of capacity, rusting of metallic parts and electrolyte leakage. When storing batteries for one year or longer, the charge level should be verified at least once a year and charged to half of full charge.

Replace the battery when a significant loss of run time is detected. Standard warranty period for all Zebra batteries is 30 days, regardless if the battery was purchased separately or included as part of the mobile computer or bar code scanner. For more information on batteries, visit: http://www.zebra.com/batterybasics

#### **Battery Safety Guidelines** • The area in which the units are charged should be clear of debris and combustible materials or chemicals.

- Particular care should be taken where the device is charged in a non commercial environment Follow battery usage, storage, and charging guidelines found in the user's guide. • Improper battery use may result in a fire, explosion, or other hazard. • To charge the mobile device battery, the battery and charger temperatures must be
- Do not use incompatible batteries and chargers. Use of an incompatible battery or charger may present a risk
  of fire, explosion, leakage, or other hazard. If you have any questions about the compatibility of a battery or a charger, contact Zebra support. For devices that utilize a USB port as a charging source, the device shall only be connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.
- Do not disassemble or open, crush, bend or deform, puncture, or shred. · Severe impact from dropping any battery-operated device on a hard surface could cause the battery to overheat. · Do not short circuit a battery or allow metallic or conductive objects to contact the battery terminals.
- · Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, or expose to fire, explosion, or other hazard. • Do not leave or store the equipment in or near areas that might get very hot, such as in a parked vehicle or near a radiator or other heat source. Do not place battery into a microwave oven or dryer.
- Battery usage by children should be supervised. • Please follow local regulations to promptly dispose of used re-chargeable batteries. · Do not dispose of batteries in fire.
- Seek medical advice immediately if a battery has been swallowed. • In the event of a battery leak, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with large amounts of water and seek medical advi If you suspect damage to your equipment or battery, contact Zebra support to arrange

#### Radio Frequency Interference Requirements- FCC Note: This equipment has been tested and found to comply with the limits for Tested to comply with FCC Standards a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in

Consult the dealer or an experienced radio/TV technician for help.

Radio Transmitters (Part 15)

a residential installatio. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio

or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna • Increase the separation between the equipment and receiver · Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, inclu interference that may cause undesired operation. Radio Frequency Interference Requirements- Canada This Class B digital apparatus complies with Canadian ICES-003.

This device complies with RSS 210 of Industry & Science Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference

Label Marking: The Term "IC:" before the radio certification only signifies that Industry Canada technical
