Putting Sustainability at the Heart of Our Products

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

Eco-friendly attributes⁵

- No halogens
- No mercury
- No PFO/PFOAs
- No latex
- Compliant with global RoHS requirements

Power consumption

- Consumes 55% less energy than the US Department of Energy (DoE) required threshold¹
- Fast charging in just 1 hour, 42 minutes⁴
- Zebra Technologies external power supplies meet DoE Level VI and all international efficiency requirements

Use fewer device types

Zebra solutions provide 5-in-1 true device convergence—the TC2x series have an integrated scanner and NFC reader, and can replace a PBX handset, smartphone, a 2-way radio and even a PC, when used as a workstation on-demand, substantially reducing plastics and electronics volumes, as well as cost

A-to-Z sustainable packaging

Our corrugated packaging is 100% curbside recyclable:

- 79% biodegradable packaging by weight
- The cardboard box contains a minimum of 50% recycled content.

Green battery technology

- Removable, easy to recycle battery
- Reduced spare battery pool: Over 20 hours of battery run time², plus visibility into battery health to ensure that all batteries can hold a full charge
- Zebra Charge Manager allows more efficient charging and longer battery lifetime

Lower consumption of devices, accessories and batteries through maximized life cycles

Most carbon emissions occur in the raw material and manufacturing stages—the fewer devices you use, the more you reduce greenhouse gasses

- Maximized Lifecycle with Zebra's Rugged design
- 6 years of security: keep your devices secure every day of their long lifecycle with LifeGuard™ for Android™³
- 6 years of repair and technical support: no need to retire working devices due to lack of available support³
- Multislot shared cradles are compatible with other Zebra devices
- Reduced spare device pool: Mobility DNA Professional troubleshooting tools keep devices on-site and in the hands of your workers—instead of the service center

Advanced NFC reading

- Avoid the spread of germs: the most complete Android NFC reading enables NFC contactless transactions like ticketing and payment
- Reduced waste from eliminating physical tickets

End-to-end Circular Economy recycling maximizes the life of device components at end of sale

Takeback Recycling Program

Zebra offers free recycling for end of life devices and will provide a certificate of destruction upon request

Device Buy-Back Program

Your end of life devices may be eligible for a device buy-back, enabling a “green” upgrade to the next generation devices

Certified Refurbished Device Program

Purchase or rent Certified Refurbished devices, which perform like new and may include End of Life products to meet season surges and bridge gaps to a tech refresh.

Battery Recycling Services

We offer a variety of options, depending on location, from convenient drop-off locations to complete A-to-Z battery management, where Zebra handles it all for you
