

# Unveiling the WT6400

...the future of wearable computers

WT6400 Touch

WT6400 Touch+Keypad

## What do you get when you invest in the WT6400?

Extreme comfort, effortless data capture, superior reliability, unmatched ergonomics — and increased productivity in hands-free workflows in tough environments.

## Advanced ergonomics in a class of their own

### A unique user-facing keypad placed below the display

Creates the smallest footprint

Key size and spacing for easy data entry for any size hand, even with heavy gloves

### Easy image capture with a natural viewing angle

Users can easily see the screen when taking a photo

No twisting and turning the wrist to preview photos

### Change batteries on the fly

Natural movement

Latch-tested with gloves

Self-cleaning battery contacts increasing battery reliability

## Designed for comfort, versatility and productivity

- **Large, bright 4.7 in. display** Works everywhere — when wet, with heavy gloves and in the freezer
- **One-of-a-kind integrated keypad** Right- and left-handed access, easy data entry even with heavy gloves
- **13MP angled side camera** Enable users to view the image onscreen while taking the photo
- **Rugged and ready for work** Waterproof, dustproof, drop-proof, tumble-proof, freezer ready with Corning Gorilla® Glass Victus® 2
- **Four versatile mounting options** — single dial, dual dial, Velcro and hip mount
- **Upgradeable to Android 17** Always have access to the latest OS features
- **Ultra-fast Wi-Fi 6E** for solid and dependable wireless connections
- **Advanced Bluetooth v5.3** Increased energy efficiency, more reliable and secure connections, better audio quality and more
- **Flexible headset support** Choose cordless Bluetooth or corded headsets
- **Integrated NFC on the device — not the battery** Easy tap-to-pair to create a total solution with wearable scanners and headsets
- **Superior battery features** Full shift battery power, hot-swap for endless power, self-cleaning battery connectors, battery management data
- **Mobility DNA** Simplify every aspect of device lifecycle for users and IT

## Innovative mounts for a perfect fit

Simple, flexible, easy to adjust to any size arm

Universal arm mount for all three straps

Dual dial micro-adjustable

Single dial micro-adjustable

Dual Velcro

### Value that only Zebra delivers

**Zebra Mobility DNA — a trusted and proven toolbox** Loaded with applications that add new features that make Zebra devices easier to use and manage, boosting user and IT productivity for a faster return on investment.

### Eliminate unexpected repair costs

With Zebra Maintenance Plans, you get quick repair turnaround and accidental damage coverage

Choose your options to create the perfect plan for your business

## Zebra OneCare™

## Built for Warehousing and Manufacturing

### Warehousing/Distribution

- Picking
- Receiving/put-away
- Sorting
- Replenishment
- Packing
- Reverse logistics (returns)
- Inventory management
- Truck loading/unloading

### Manufacturing

- Inventory management
- Put-away
- Quality control
- Parts tracking
- Line-side replenishment
- Work-in-Process (WIP) material tracking and tracing

Take productivity to the next level in your hands-free workflows with the WT6400 — the ideal wearable computer built for tough environments.
