# DISMANTLING AND TREATMENT INFORMATION

## WhereTrack Module Product

### Conforms to Waste electrical and electronic equipment (WEEE) 2002/96/EC Category 3 product according Annex IA

Date: 10 October 2011

Zebra Technologies 2940 North 1<sup>st</sup> Street San Jose, CA 95134 <u>www.zebra.com</u>

#### Reuse and treatment information

#### **Product Description:**

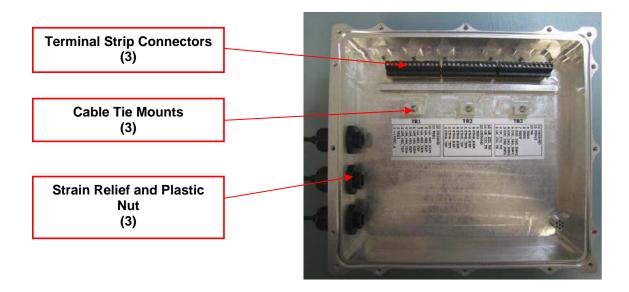

The WhereTrack Module consists of a housing, main electronics board including a GPS receiver and 802.11 client card (not accessible to customer), the connectors that are user accessible are three Reverse Polarity TNC Male (RP-TNC Male) connectors, one TNC Female Connector for connecting to a GPS antenna, and a 36-pin terminal block for connecting power, Ethernet, RS485, RS232, and two remote switches.

### **Dismantling Instructions**

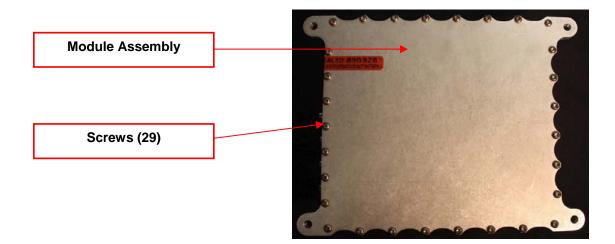

A) Place the unit with the side-up that contains 16 screws. Note: the other side contains 29 screws.

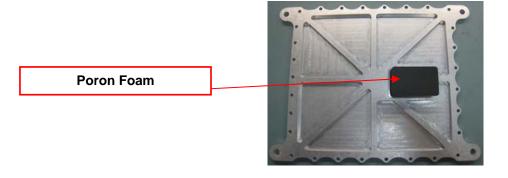

B) Remove 16 screws and set the cover to the side. Remove the O-Ring from the housing. If cables exist, remove the cables by unscrewing from the terminal strip connector. Remove the terminal strip connector by pulling straight up. Unscrew 3 cable tie mounts. Remove 3 Liquid Tight Strain Relief Fittings by unscrewing the plastic nut on the inside of the unit. Remove O-Ring from unit.

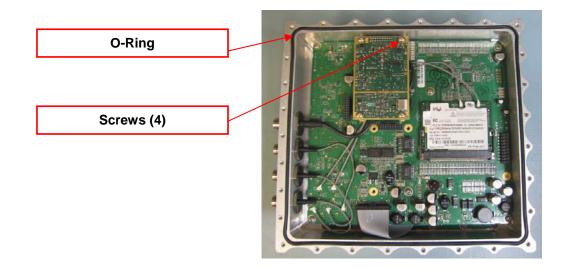

C) Turn the unit over and remove 29 screws.

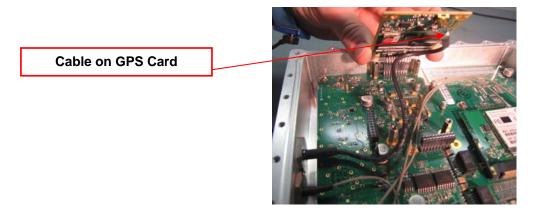

D) Remove the Poron Foam from the cover by pulling off.

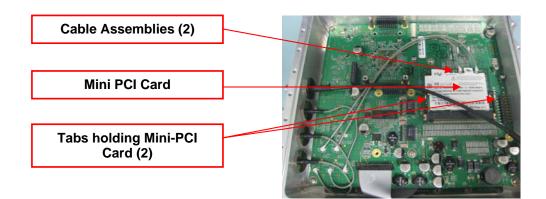

E) Remove the O-Ring from the unit then remove 4 screws securing the GPS Card.

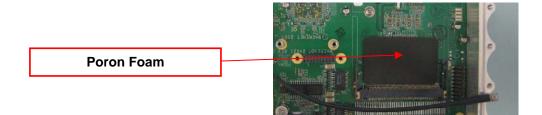

F) Remove the cable from the GPS Card by pulling the cable off the board.

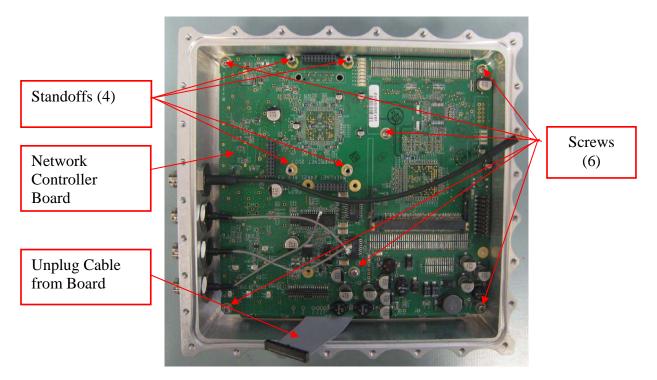

G) Remove 2 cable assemblies from the Mini PCI Card. Remove the Mini PCI Card from the unit by pulling out on the two tabs then pull the board straight out from the connector.

H) Remove the Poron Foam found under the Mini PCI Card by pulling up.

 Unplug the ribbon cable from the Network Controller Board. Remove 4 Standoffs from the board by unscrewing. Remove 6 screws that secure the board. Unplug any additional cable assemblies from the board and pull the board straight up to remove.

J) Remove the ribbon cable from the Interface Board by pulling up. Remove 4 Cable Assemblies secured to the housing by unscrewing the nut. Remove 12 screws from the Interface Board and remove the board from the Housing.
