

Z-Perform 1000D-E

Paper Label Made with Recycled Content

For environmentally conscious business owners who need to find solutions that contribute to achieving sustainability targets, Zebra offers the Z-Perform 1000D-E paper label material with recycled content that provides a more sustainable solution without compromising on quality. Zebra's partnerships with the major material suppliers and its own commitment to sustainability means that we can offer new products and solutions as they come to market. The Z-Perform 1000D-E is recyclable and biodegradable, meaning that when combined with paper packaging, the label does not need to be removed prior to recycling, optimizing operational efficiency, and reducing the amount of waste going to landfill.

Contains recycled content

The Z-Perform 1000D-E contains 15% post-consumer recycled materials and has been developed leveraging the circular economy concept which saves resources including water, energy and greenhouse gases whilst delivering the same print quality as a standard grade material.

Recyclable and biodegradable

When combined with paper packaging, the Z-Perform 1000D-E does not need to be removed before recycling, reducing the amount of packaging going into landfills.

Print Confident. Print Quality. Print Zebra.

Printing supplies can impact everything from printhead lifespan to operational efficiency. That's why we design, produce and rigorously test our own line of thermal printing supplies to ensure consistent, optimized performance. We utilize an ISO 9001 certified, 23-point quality inspection to ensure consistent quality. No matter when you order your labels you can count on the same great performance.

Contribute to your sustainability goals without compromising on quality with the Z-Perform 1000D-E. For more information please visit, www.zebra.com/barcodesupplies

Specifications

Material Construction

RM#	10035939RM
Facestock	Matte white uncoated thermal imaging paper 75 microns
Adhesive	General purpose rubber based adhesive 12 microns
Liner	55gsm glassine liner 49 microns
Total Thickness (+/- 10%)	136 microns
Environment	Indoor use; cold temperatures

Temperature Performance

Minimum Application Temperature	0°C
Service Temperature Range	-40° C to 50° C

Recommended Printers and Ribbons

Printers	Any Zebra Thermal Printer
Ribbons	Not applicable - Direct Thermal product

Chemical Resistance

This product is designed for use where limited image durability is required. Contact with moisture, oils, fats, plasticizers and exposure to strong lighting should be avoided.

Regulatory

BPA free.
Compliant with Annex XVII to Regulation (EC)
No 1907/2006.
The adhesive complies with the European food directives and legislations, FDA 175.105 and the German recommendations XXI as published by BfR.

Product Performance & Suitability

Recommended storage conditions	1 year duration when stored at 20° C to 25° C at 40 to 50% RH
Expected life span in application	Indoor use, for up to 1 year

Material Testing in End Application

The information contained in this document is to be used for guidance only and is not intended for use in setting specifications. All purchasers of Zebra products shall be solely responsible for independently determining if the product conforms to all requirements of their unique application. All products should be pre-tested to ensure they meet all intended requirements of specific end-use applications.

Warranty

Supplies are warranted against defects in workmanship and materials for a period of 1 (one) year from the date of shipment. For the complete warranty statement, please visit: zebra.com/warranty.

Markets and Applications

Logistics

- Labeling of packaging materials; e.g. boxes and pallets

Warehousing

- Shipping, picking and receiving labels

Retail

- Shelf edge labels; product and price labels

Manufacturing

- Work in progress labels

Other

- Product identification labels
