

# OSUPDATE PACKAGE BUILDER UTILITY V.2.08 - SPR 30198 - RELEASE NOTES

## INTRODUCTION

The OSUPDATE Package Builder is a WIN32 utility that can significantly simplify the development of OSUPDATE packages. The OSUPDATE Package Builder includes basic AirBEAM Package Builder functionality so that the AirBEAM Package Builder is not required. Refer to the OSUPDATE Package Builder Product Reference Guide for more detailed information on using the OSUPDATE Package Builder. The OSUPDATE Package Builder Product Reference Guide is installed as part of the OSUPDATE Package Builder installation process.

## DESCRIPTION

### Version 2.08:

- SPR 30198 - Issue fixed wherein osupdMPA3.exe which enables to include the longer file names while making the application.gar file.

### Version 2.07:

- SPR 29813 - While upgrading WT4190\_VOW devices with an OSUpgrade Package Builder image and Application.gar file, device gets an error message: "Acknowledge LED error"
- This release includes latest version -v0.92- of update loader utility and compatible flash Update Utility dll for WT4190\_VOW device.

Note: Prior versions of the OSUpdate Package Builder MUST be uninstalled before installing version 2.08
